Parallel or Perpendicular

(Do Your Ears Hang Low)

Do you see parallel
Lookin' like a double 'L'
Lines that never cross
Never would as well
But when two lines come together
Makin' right angles, we yell...
Perpendicular

Parallel, Lines that never cross
Or Perpendicular, Two lines when they come together
Parallel or Perpendicular

Quadrilateral Dance

(Father Abraham)

Quadrilateral has many shapes
Many shapes has quadrilateral
A square is one of them
Congruent sides
And 4 right angles too
Right arm

Quadrilateral has many shapes
Many shapes has quadrilateral
A parallelogram, opposite sides
Both sets are parallel
Right arm, left arm

Quadrilateral has many shapes
Many shapes has quadrilateral
Rectangle's one of them
The corners square
4 right angles around
Right arm, left arm, right leg

Chorus

Quadrilateral, We do the quadrilateral dance
Let's do the Quadrilateral,
We do the quadrilateral dance

Quadrilateral has many shapes
Many shapes has quadrilateral

Buy the CD
TODAY!!

A trapezoid is one, 2 parallel
But the other 2 are not
Right arm, left arm, right leg, left leg

Quadrilateral has many shapes
Many shapes has quadrilateral
Rhombus could be a square
Or diamond too
Must have congruent sides
Right arm, left arm, right leg, left leg FOUR SIDES! (Chorus)

9's Song

(Hokey Pokey)

You put your 9, 18, 27, 36,
45, 54 and 63, your 72, 81 and 90
That's what it's all about!

The Place Value Rap

Music by Ben Jacobs, Lyrics by Tim Bedley

The digits, the digits, they each have a name
Memorize 'em, Understand 'em is the game
We start at the decimal, to the left we move
Each place is 10 times bigger, multiply 'em and we prove

The digits, the digits, they fit in so tight
Greater to the left and lesser to the right
Starting at the decimal, sandwiched in between
Zeroes hold the empty places, haven't you seen?
The digits, the digits, each one means a lot
You can't leave 'em out of the place value spot
Reading big numbers each comma's a word
"Thousand, Million, Billion," commas, haven't you heard? Word!

Ones, Tens, Hundreds, Comma
Thousands, Ten Thousands, Hundred Thousands, Comma
Millions, Ten Millions, Hundred Millions, Comma
Billions, Ten Billions, Hundred Billions, Comma

Let's take it to the right of the decimal point
We've got tenths, hundredths, thousandths, ten thousandths
Smaller than a 1 with a T H

7 Song

(Twinkle, Twinkle Little Star)

7, 14, 21, 28 and 35, 42 and 49
56 and 63, 70 is the last one
Counting 7's is so much fun
7, 14, 21, 28, YA! 35, 42, and 49

Mean Mode Median

Music by Ben Jacobs, Lyrics by Tim Bedley

I have a set of numbers so let's now begin
The mean is the average, Add 'em then divide
The mode is most often, and it's easiest to find
Median is the middle, won't have any trouble
Just line 'em up big to little
Pick the number in the middle
Woo, That's mean, mode, median!
Mean Mode Median (Average, Often, Middle Number)

6 Song

(Row, Row, Row Your Boat)

6, 12, 18, 24, 30, 36, 42 and 48, 54 and 60

Angles Song

(Bingo Song)

There was an angle had a name
And Righty was his name-o
Square corner just like so
Square corner just like so
Square corner just like so
And Righty was his name-o

There was an angle had a name
And Acute was her name-o
Closed and cute just like so
Closed and cute just like so
Closed and cute just like so
And Acute was her name-o

There was an angle had a name
And Obtuse was his name-o
Open wide just like so
Open wide just like so
Open wide just like so
And Obtuse was his name-o

3 Song

(Oh Where has My Little Dog Gone)

Oh where, oh where is 3, 6, 9 12, 15, 18, 21
With a 24 brings us 27
Oh where, oh where is that 30
I've learned to skip my 3's

I'm good at skippin' on my 3's
I'm good at skippin' 3's
I've learned to skip, it's on my 3's, oh ya!

Triangle

(Here We Go 'Round the Mulberry Bush)

Here we go 'round the triangle, triangle, the triangle
Here we go 'round the triangle
It's geometry

Equilateral triangle, triangle, triangle
Equilateral triangle
3 congruent sides

Isosceles triangle, triangle, triangle
Isosceles triangle
2 congruent sides

Scalene Scalene triangle, triangle, triangle
Scalene Scalene triangle
No congruent sides

This-is-a-right triangle, triangle, triangle
This-is-a-right triangle
A right angle it has

Give me my triangle, my triangle

4 Song

(London Bridge)

4, 8, 12, 16, 20, 24, 28, 32 and 36
Here comes 40

Perimeter Area Song

(The More We Get Together)

To find a shape's perimeter, perimeter, perimeter
To find a shape's perimeter, just add all the sides
'Cause rectangle area, yes rectangle area
Is one side times the other, and area you'll find

8 Song

(Frere Jaque)

8 and 16 (8 and 16) 24, 32
40 and 48, 56 and 64, 72, 80

Measurement Song

(If You're Happy and You Know It)

(1) If you're a foot long and you know it spread your hands (repeat)
If you're a foot long and you know it

With 12 inches you will show it
If you're a foot long and you know it spread your hands

(2) If you're yard long and you know it, take a step (repeat)
If you're yard long and you know it
With 3 feet you'll surely show it
If you're yard long and you know it, take a step

(3) If you're meter and you know it, giant step (repeat)
If you're meter and you know it
Hundred centimeters it will show it
If you're meter and you know it, giant step

(4) If you're kilometer and you know it, 'round the block (repeat)
If you're kilometer and you know it,
Thousand meters you will show it
If you're kilometer and you know it, 'round the block

(5) If you're liter and you know it, take a drink (repeat)
If you're liter and you know it
Thousand milliliters it will show it
If you're liter and you know it, take a drink

(6) If you're gallon and you know it, pump some gas (repeat)
If you're gallon and you know it
With 4 quarts you'll surely show it
If you're gallon and you know it, pump some gas

(7) If you're a pound and you know it, throw a boot (repeat)
If you're a pound and you know it,
16 ounces you will show it
If you're a pound and you know it, throw a boot

(8) If you're a ton and you know it, drive a car (repeat)
If you're a ton and you know it
2,000 pounds will surely show it
If you're a ton and you know it, drive a car

(9) If you're kilogram and you know it, lift a brick (repeat)
If you're kilogram and you know it,
Thousand grams will surely show it
If you're kilogram and you know it, lift a brick

(10) If you're one year and you know it, cut your cake (repeat)
If you're one year and you know it
365 days will show it
If you're one year and you know it, cut your cake
